## **1 ReSource Inc. announces partnership with Wintex**

*1 ReSource Inc* is pleased to announce their new partnership as exclusive distributor of high quality mesh and fabrics from South Korean textile manufacturer, Wintex.

Established in 2001, Wintex was one of the first manufacturers in the world to produce quality mesh fabric. The following year in 2002, Wintex began the exportation of their mesh around the globe and applied for patent registration for manufacturing non-combustible mesh fabric.

Over the next 10 years, Wintex was able to establish a local manufacturing plant, register another patent for their method of manufacturing mesh fabric, received ISO certifications as well as 9001 and 140001, plus receive Koreans first certification for Eco-friendly products. Wintex also developed an R&D center and received multiple awards for “Most Promising Small and Middle-Sized Company” and “Tower of 1 Million Dollar Export on Trade Day”.

Wintex continued to grow over the years and developed strong brand awareness. With operations located in China and South Korea, *1 ReSource Inc* is very pleased to be providing sales and marketing, as well as distribution from its 40,000 sq. ft. Toronto Canada warehouse. *1 ReSource Inc* will be marketing the Wintex collection to the contract furniture, residential and healthcare markets.
